Full URL for the Github repo *

<https://github.com/mathaholic/W209FinalProject>

Project title *

What's in your Personal Care Products?

Paragraph describing the project *

Our Project is meant to help you find allergen-free and socially conscious personal care brands. If you have always wanted to find an allergen free brand, this site is for you. We have combined Open Beauty Facts with PETA and online medical databases to gain a deeper understanding of our favorite cosmetics, from toothpaste to mascara.
